# My Club

## The Asteroids Galaxy Tour

Parallel, parallel, paralyze me
Every single bone in my body feels free
Boy what you want from, boy what you want from, boy what you want from me
Said it one, get it one, coming in the night
Coming into me like a parasite
Why won't you let me, why won't you let me beYou keep on banging my door
You keep on asking for more
Oh boy how could I have known
That you break through my windowAnd into my club
Like you run this town
You turning it up
And then we get down down down
Right into my club
Like you run this town
You turning it up
And then we get down down down
We get down down down
Boy we get down down down down do-be-downIndigo[?], dynamo, tell me what's your name
Tell me all about it like you got no shame
I got my eyes on, I got my eyes on, I got my eyes on you
Give me some intrigue, give me what I need
Build it up slowly like a symphony
Do you what you want boy, do what you want with meTonight, I'll be the bullet in your gun
Tonight, go shoot me higher than the sun
Tonight, you shoot me up or I be [alive?alone?along?]
You do what you boy, do what you want with meYou keep on banging my door
You keep on asking for more
Oh boy how could I have known
That you break through my windowAnd into my club
Like you run this town
You turning it up
And then we get down down down
Right into my club
Like you run this town
You turning it up
And then we get down down down
We get down down down
Boy we get down down down
We get down down down

Boy we get down down down
We get down down down
Boy we get down down down down do-be-downI get up now
I get up now
You're breaking in
You're breaking in
Right into my club
Like you run this town
You turning it up
And then we get down down down
Right into my club
Like you run this town
You turning it up
And then we get down down down
We get down down down
Boy we get down down down down do-be-down
