

# You're Not Good Enough (Holy Ghost! Remix)

## Blood Orange

Deep in the play  
I see you as you are looking over  
Friends in my way  
You never could have been a good lover  
Watch what you say  
Could never mean a word and still hurt you  
Look the other way  
Please tell me that I am wrong  
So wrongI never was in love  
You know that you were never good enough  
Fall asleep right next to me  
You know that you were never good enough49 days  
Surely I should be feeling a whole lot better  
Ways and ways  
You keep on coming back  
I keep letting you inI never was in love  
You know that you were never good enough  
Fall asleep right next to me  
You know that you were never good enough
