

Reflections of a Sound

Silverchair

In the sun we are found
To be reflections of a sound I know its been far too long
In stormy weather
My arrested hope wont choke forever
Like a memory, I needed never We walk wrapped in thought
Some are vacant, some have grown too short
Its the only thing Ive ever had
That keeps me lonely In the sun we are found
To be reflections of a sound
When nobody is around In the sun we are found
To be reflections of a sound
When nobody is around Come down from the waste of time
Feel so empty when I feel so fine
Starting over we could change
This light shadow sober Ive been waiting for far too long
Lets stick together
Coz youre keeping me warm
But its a lonely setting sun In the sun we are found
To be reflections of a sound
When nobody is around In the sun we are found
To be reflections of a sound
When nobody is around I wait so long
Now my head is full of pressure
I need time to cure my mind
Its like a loop that lasts forever Ive been waiting for far too long
Lets stick together
Coz youre keeping me warm
But its a lonely setting sun In the sun we are found
To be reflections of a sound
When nobody is around In the sun we are found
To be reflections of a sound
When nobody is around In the sun we are found
To be reflections of a sound
For nobody In the sun we are found
To be reflections of a sound
For nobody
