

# Jay down

## Tunng

Soft wings and gentle tongue  
Mountains that breathe as long as Kipling  
Oh sorrow song  
Of it all

All that static air  
Old stream tangled hair  
Firepower from somewhere  
All tongues twisted here

Jaybird on old black branch  
Whisper all secrets past  
Old man, don't be afraid  
Of it all

Jaybird hold your tongue  
Whisper all that's done  
Deep down lover's song  
Where did we go wrong?
