

Cry, Cry

Mazzy Star

Cry, cry for you
Just like you knew I wouldn't do
Cry, cry for you
Just like a song in the last light Should I leave it all away?
Not like the kindness that you gave
That's why it never seems the same
Behind your eyes I stood behind when no one asked me
And took you home after the fight
I drove my car into city lights
Drove down the road that I am on Cry, cry for you
That's what you think I want to be
Cry, cry for you
An empty heart that sees me through Cry, cry for you
Just like you knew I wouldn't do
Cry cry for you
Just like a song in the last light Cry, cry for you
Just like you knew I wouldn't do
