## Wouldn't Have It Any Other Way

## **The Streets**

If we're backin' up it's just to get a runnin' start 'Cause everything we do we do with all our hearts And it don't really matter what they say We wouldn't have it any other wayWe play our songs and play our old guitars And it don't really matter where we are We wake up in a new world every day And we wouldn't have it any other wayWe wouldn't have it any other way And it don't really matter what they say We wake up in a new world every day And we wouldn't have it any other wayAnd when it's time for us to move along To a place we sometimes sing of in our songs Raise your glasses high on that fine day 'Cause we wouldn't have it any other wayWe wouldn't have it any other way And it don't really matter what they say We wake up in a new world every day And we wouldn't have it any other way We wouldn't have it any other way
