You Never Get What You Deserve

Starsailor

Well, they let you down
Fallen angel, upon the ground
And they filled you all up with drugs
Then one day you just gave it upYou're a shining star
Hotels, airports and mini bars
And you lived your life by the book
Then one day you just gave it upAnd you, you never get what you deserve
Not youOn a life support machine
A damaged teenage queen
A danger to yourselfDid she bring you round?
Win your heart by just being round
Do you think of the one you lost
Late at night while you count the cost?And you, you never get what you deserve
Not youOn a life support machine
A damaged teenage queen
A danger to yourselfLife was dealt an awful hand
It didn't end as planned
It started off so well
It started off so well
