

# Shangri La

[Daniel Masson](#)

I know of a place with a pretty face  
Where the river's flowing through my mind  
On a mountain high and I could touch the sky  
When I'm thinking of you I just can't believe that you are mine  
I just wanna hold you for all time  
Every time I look into your eyes  
Baby, I'm in paradise Everybody knows you're my  
Special little something, yes you are  
You're my shangri-la Everybody knows that you're the  
Only one I'm wanting, yes you are  
You're my shangri-la, yeah I've been all around, finally I've found  
On a field of dreams an Angel  
By the ocean blue with a perfect view  
When I'm looking at you I just can't believe that you are mine  
And I just wanna hold you for all time  
Every time I look into your eyes  
Baby, I'm in paradise Everybody knows you're my  
Special little something, yes you are  
You're my shangri-la Everybody knows that you're the  
Only one I'm wanting, yes you are  
You're my shangri-la S to the H to the A to the N to the G  
To R to the I to the L to the A  
Shangri-la  
S to the H to the A to the N  
To the G to R to the I to the L to the A  
Shangri-la  
You're my shangri-la Everybody knows you're my  
Special little something, yes you are  
You're my shangri-la Everybody knows that you're the  
Only one I'm wanting, yes you are  
You're my shangri-la Everybody knows you're my  
Special little something, yes you are  
You're my shangri-la Everybody knows that you're the  
Only one I'm wanting, yes you are  
You're my shangri-la You're my shangri-la
