One Lonely Night

Reo Speedwagon

You and your baby had some words today
Till not another word was left to say
I see that grin, boy
Maybe you think you'll win, boy
Until the sun goes down and once again, boy
One lonely night, one lonely night
That's all it takes to completely break you
They say it's darkest right before the dawn
But oh those darkest hours can be so long
You're feelin' strong, boy
Tellin' yourself she's wrong, boy
But how much longer can this night go on, boy?
One lonely night, one lonely night

That's all it takes to completely break you
One lonely night, one lonely night
That's all it takes to completely break you
Ooh, she's such a good find
Have you gone and lost your mind?
You should know she's one of a kind
Ooh, she's such a good find
Have you gone and lost your mind?
You should know she's one of a kind
Just lonely night, one lonely night
That's all it takes to completely break you
