

# Holiday

## Maxi Priest

I didn't think you'd be  
Any more than a mystery  
Cause you are like a fantasy  
Woman of my dreams to me  
But ohh, ohh  
You're so warm in a world so cold  
And that is why I love you so

My supervisor stressing me  
Made so many enemies  
It's taking all my energy  
But I know everything will be  
Alright, iiiiii  
If I can have you by my side  
Cause when you love me all through the night

It feels like a Holiday, Hey  
I feel your body on me  
Like a summer breeze

In the shade, Hey  
And I've been workinf all week  
And my mind need  
Time to play  
Like a holiday  
Won't you come my way  
Next time that I need a break

There's never enough time left to hold you  
Yah slippin' away out of my hands  
And I don't wanna have to watch you leave gal  
So kiss me on my lips just once again  
I don't want this night to end

It feels like a Holiday, Hey  
I feel your body on me  
Like a summer breeze

I wish that I could dive in your paradise

I'd keep di riddim like a heart beat between your thighs

Touch me with the warm of your passion

Shiver gal with the slightest reaction

All I need is to feel satisfaction running all over me
