In Me

Allan Tausen

Where were you last night when the party was on?
Where were you when we all went down to the bar?
It seems you have changed from us all
It seems you have changedYou want to know the differences between us
You want to know why these things have changed
You've got to know the one who lives in me
He lives in me, in meOnly seven days ago
I let go off my life, yes I gave it all
I let go off all I use to do
And I gave it all awayYou want to know the differences between us
You want to know why these things have changed
You've got to know the one who lives in me
He lives in me, in meHe lives in me, in me He lives, in me, me
You want to know the differences between us
You want to know why these things have changed
You've got to know the one who lives in me
He lives in me, in me
In me, in me, in me
