

# Put the Blame on Me

## Eurythmics

Put the blame on me  
Put the blame on me Take me to a dark room  
And hug me to bits  
I just wanna be kissed so badly  
Right there on my lips Put the blame on me  
Put the blame on me Why did you close your eyes  
When I'm the one that's blind?  
Why did you close your eyes?  
That was too unkind  
Where are you tonight, are you sleeping on your own?  
I need to know where you are tonight  
Are you sleeping on your very own?  
Tell the one that's lying with you To get right up and go back home  
To get right up and go back home  
To get right up to get back home, and go back home To get right up and go back home  
To get right up and go back home  
To get right up and go back home (Put the blame on me)  
To get right up and go back home  
To get right up and go back home (Put the blame on me)  
To get right up and go back home  
To get right up and go back home  
(Put the blame on me)  
To get right up and go back home  
To get right up and go back home
