

Wings & Hearts

The 69 Eyes

Hey, hey babe, where did you disappear?
Hey, hey babe, where did you go from here?
Did you hear it calling your name?
Did you feel it burning in your veins?
Hey, hey baby, where did you go with the rain?

I saw a storm in her eyes
A thousand lives
And she danced on, danced on like on fire

Wings and hearts
Two sides of evil
That's what you are
Devil's wings and angel heart
Voodoo got you
You got the voodoo

Wings and hearts
Two sides of evil
That's what you are
Devil's wings and angel heart
Voodoo got you
You got the voodoo

Hey, hey babe, why did you disappear?
Hey, hey babe, why did you come back here?
Did you hear me calling your name?
Did you feel me burning in your veins?
Hey, hey baby, why did you go with the rain?

I saw a storm in her eyes
A thousand lives
And she danced on, danced on like on fire

Wings and hearts
Two sides of evil
That's what you are
Devil's wings and angel heart
Voodoo got you

You got the voodoo

Wings and hearts

Two sides of evil

That's what you are

Devil's wings and angel heart

Voodoo got you

You got the voodoo
