Out from the Inside

Wildhearts

[Jagdhar]Coming on strong, moving along
Taking a dive, being alive
Found us away - climbing up a rainbow
Ending the day - at a place we all know
Pass it around - hitting on the wall now
Never look down - that's the way it all doesOne step outside everything is feeling alright one
Step inside everything is coming alive one step
Outside everything is feeling alrightOpen a line, see what you find
Get it today, give it away
How many time - gonna be your last try
Too many crimes - did you pay the toll
Loving all night - synfetic can't stop
Touching the sky - didn't lose controlOne step outside everything is feeling alright one
Step inside everything is coming alive one step
Outside everything is feeling alrightLook away, now run away, now turn away
From all our facesOne step outside everything is feeling alright one
Step inside everything is coming alive one step
Outside everything is feeling alrightComing on strong, moving along
