Save a Prayer

Primal Fear

From the valley of the darkness
The elder say nobody has returned
It's always been a challenge for me
To find adventure to face the fearI made my mind up to go
I'll give my life just to knowSave a prayer
Save a prayerBeyond imagination
So many signs just tell me to stop, stop, stop
I feel a certain energy
That leads me to the jungle of the darkOh, my visions getting clear
What is behind eternal fearsSave a prayer
Save a prayerForgotten land, I'm reaching the end
It's fading to black, save meI made my own great escape
And if you miss me, it's too lateSave a prayer
Save a prayer
Save a prayer
Save a prayerForgotten land, I'm reaching the end
It's fading to black, save meSave a prayer
Save a prayer
