

# Out of Sight

## Midland

Clothes ain't in the closet, shoes ain't under the bed  
I should've believed her when she said what she said: You'll never change I know you never will  
I just sat there watching tears rolling over the hill  
I called her mama and I called her good friend  
They said: She called it quits, so boy don't call here again  
Up and down these streets looking for her car  
Tried to make it back home, but ended up at the bar  
She's gone (she's gone, so long), never coming back  
So gone (so gone, so gone), the train went off the track  
And all the king's horses and all the king's men  
Couldn't put me and my baby back together again  
So long (she's gone, so long), that's the way you know  
She's gone (so gone, so gone) and everybody knows  
That I'm going crazy one night at a time  
She's out of sight and I'm out of my mind  
I'd saw you down in Memphis walking in the rain  
I caught a glimpse of you in Dallas getting off a plane  
But it's all in my head what else can I do  
She ain't drinking anymore, so I'm drinking for two  
She's gone (she's gone, so long), never coming back  
So gone (so gone, so gone), the train went off the track  
And all the king's horses and all the king's men  
Couldn't put me and my baby back together again  
So long (she's gone, so long), that's the way you know  
She's gone (so gone, so gone) and everybody knows  
That I'm going crazy one night at a time  
She's out of sight and I'm out of my mind, oh oh, oh oh oh  
She's gone (she's gone, so long), never coming back  
So gone (so gone, so gone), the train went off the track  
And all the king's horses and all the king's men  
Couldn't put me and my baby back together again  
So long (she's gone, so long), that's the way you know  
She's gone (so gone, so gone) and everybody knows  
That I'm going crazy one night at a time  
She's out of sight and I'm out of my mind (She's gone, so long)  
So long, oh  
(So gone, so gone)  
She's gone and everybody knows  
That she's out of sight and I'm out of my mind  
(She's gone, so long) Oh  
(So gone, so gone) Oh oh oh oh

That she's out of sight and I'm out of my mind

(She's gone, so long)

(So gone, so gone)
