Euphoria (Firefly)

Delerium

And how I've loved
And I have served
And I have sinned
But I have learntAs long as you are
True to the life that you live
This is the time
To feel loveI feel a stirring deep within
Slowly picking up momentum
Like the tide coming into shore
Over and under in its courseThis feeling emblazed inside
Every nerve like a firefly
Hovering above me
Glow glow, glowing divineEvery nerve like a firefly
Every nerve like a firefly
This feeling emblazed inside
Every nerve like a fireflyI never want to lose
What I have finally found
There's a requiem
A new congregationAnd it's telling me
Go forward and walk
Under a brighter sky
Every nerve's glowing like a fireflyEvery nerve like a firefly
Every nerve like a firefly
GlowingI feel a stirring deep within
Slowly picking up momentum
Like the tide coming in to shore
Over and under in its courseI never want to lose
What I have finally found
There's a requiem
A new congregationAnd it's telling me
Go forward and walk
Under a brighter sky
Every nerve's glowing like a fireflyGlow, glow divine
Glow, glow divineEvery nerve like a firefly
Glowing
Every nerve like a firefly
Glow, glow
