

Levitation

Hawkwind

In the darkness I will shine
Cast not shadows, nor define
I walk on water, float on air
There's no other to compareI have this fascination
No cause for a deviation
It's called levitationThere's no cause to start and scream
Nor rub your eyes, this is no dream
Although I sit upon this chair
I rise and float up in the airI have this fascination
No cause for a deviation
It's called levitation
