

Baked Bean

Haircut 100

Yeah yeah yeah yeah yeah yeah

Yeah yeah yeah yeah yeah yeah How about the time when I'm feeling there?

Feathers in science time, take

Take that bean down, feather's yeah

Dig it in to me, be sensible, weathers in science time

Be ten only, how about waiting time see you on my range Cry big into, be beneath the rays don't bring down

No

Being only ten, is when life begins to grin

Being only ten is when life begins to grin

Being only ten is when life begins to ring
