

Don't Let Me Fall

[Lenka](#)

Underneath the moon, underneath the stars
Here's a little heart for you
Up above the world, up above it all
Here's a hand to hold on to But if I should break, if I should fall away
What am I to do?
I need someone to take a little of the weight
Or I'll fall through You're just the one that I've been waiting for
I'll give you all that I have to give and more
But don't let me fall Take a little time, walk a little line
Get the balance right
Give a little love, gimme just enough
So that I can hang on tight We will be alright, I'll be by your side
I won't let you down
But I gotta know no matter how things go
That you will be around You're just the one that I've been waiting for
I'll give you all that I have to give and more
But don't let me fall, don't let me fall Underneath the moon, underneath the stars
Here's a little heart for you
Up above the world, up above it all
Here's a hand to hold on to You're just the one that I've been waiting for
I'll give you all that I have to give and more
But don't let me fall You'll be the one that I'll love forever more
I'll be here holding you high above it all
But don't let me fall
