## The Game Is On

## Helloween

Have you seen this little toy? When you're down it gives you joy

You escape reality

Delve into it's TV screenFor the rich and for the poor

For the even more secure

Doesn't matter where you are

Where you go or where you've beenWell, there's still no guarantee

For your virgin mind you see

Just go on and play the game

You will surely go insaneThe game is on and you have gone

Gone to a world on its display

And the game is fun but when it has won

All you ever hear is what it says There's a great amount of fumes

Coming out from somebody's rooms

The firemen got there

Making their way up the stairsFind a man in a chair

But it doesn't seem he's there

With a gray box in his hands

He has gone to another landThe game is on and you have gone

Gone to a world on its display

And the game is fun but when it has won

All you ever hear is what it says You have played it much too long

Now your senses get things wrong

All your walls come crashing down

Now it's time for you to frownHow'd you like this heavy load?

Guess your brain will soon explode

You never had this ugly feel

Time to die, emergency! The game is on and you have gone

Gone to a world on its display

And the game is fun but when it has won

All you ever hear is what it says The game is on and you have gone

Gone to a world on its display

And the game is fun but when it has won

All you ever hear is what it says The game is on

The game is on

The game is on
