Hungry Wolf

X

I am the hungry wolf
and run endlessly with my mate
I see the gutter feed on the foolish
outrun and kill the strong
at daybreak I roam awake to who follows me
I roam, I roam...

I am the hungry wolf
and run endlessly with my mate
welcome to the dripping jaws
the alter of your death
at daybreak I roam ready to tear up the world
I roam, I roam...

The hungry wolf stares from the hill
at the villagers around the fire
she loves her mate as he loves her
and they live together for life

I am the hungry wolf and run endlessly with my mate
look across the street, my friend
we're waiting for you to slow down
at daybreak i roam eyes in the back of my head
I roam, I roam...

The hungry wolf stares from the hill
at the villagers around the fire
she loves her mate as he loves her
and they live together for life

I am the hungry wolf and run endlessly with my mate
look across the street, my friend
we're waiting for you to slow down
at daybreak i roam eyes in the back of my head
I roam, I roam...
