

John Wayne

Billy Idol

You know you make me crazy
And my mind is racing
You're wastin' all my time
Someone come and save me
Oh, yeah 'Cause when I need you
I can see through
And I feel you
Right now
On the highway
Doin' my way
And I want you to feel
When I'm going down Chorus
'Cause I am not afraid
And I won't go down in flames
'Cause nothing's gonna be the same
And everything you know
You keep inside your soul
'Cause tonight I'm gonna be John Wayne
Oh, yeah A cold wind is a chasin'
And you're not gonna face it
That reason's in the rhyme
You walked on what was sacred
Oh, yeah And when I need you
I can reach through
And I feel you
Right now
But it's a new day
But your skies are gray
And I want you to feel
When I'm going down Chorus
'Cause I am not afraid
And I won't go down in flames
'Cause nothing's gonna be the same
And everything you know
You keep inside your soul
'Cause tonight I'm gonna be John Wayne Everything you know
You keep inside your soul
'Cause tonight I'm gonna be John Wayne Chorus:
I am not afraid

And I won't go down in flames
'Cause nothing's gonna be the same
And everything you know
You keep inside your soul
'Cause tonight I'm gonna be John Wayne
I am not afraid
And I won't go down in flames
'Cause nothing's gonna be the same
And everything you know
You keep inside your soul
'Cause tonight I'm gonna be John Wayne
