

# Don't Look Now

## Butterfly Boucher

Don't look now  
I saw you dancing on that speaker box  
Girl, what's your name?  
I see you texting on that BBM  
Can we exchange?  
I got two glasses at my table  
Can I show you the way?  
Tonight's the night to let it go, go  
Girl, it's okay  
Yeah, I'm not looking for no strings  
You're not looking for a ring  
If you're ready for this fling  
Then meet me in the back  
I never knew it'd be like this  
Such an unexpected twist  
Started off with just a kiss  
I don't know how to act  
Hey, uh, I know I promised you I'd take it slow  
I know I swore on everything I own  
But I can't resist, how's just one kiss?  
But don't look now  
You've got me going, I'm going, I'm gone  
Don't look now  
You've got me going, I'm going, I'm gone  
Don't look now  
I can't resist, how's just one kiss?  
Don't look now  
My heart is pumping  
Like that bass before I pick you up  
The way we stole each other's hearts  
We playing stick 'em up  
I take a shot of [Incomprehensible]  
To get me in the zone now  
She took a step out the door  
From head to toe she's all wow  
I'm not looking for no strings  
You're not looking for a ring  
If you're ready for this fling  
Then meet me in the back

I never knew it'd be like this  
Such an unexpected twist  
Started off with just a kiss  
I don't know how to act  
Hey, uh, I know I promised you I'd take it slow  
I know I swore on everything I own  
But I can't resist, how's just one kiss?  
But don't look now  
You've got me going, I'm going, I'm gone  
Don't look now  
You've got me going, I'm going, I'm gone  
Don't look now  
I can't resist, how's just one kiss?  
Don't look now  
There's somethin' 'bout this girl  
She shakin' up my world  
She got me doin' things  
I never did before  
Damn, there's somethin' 'bout this girl  
She shakin' up my world  
She got me out my zone  
I'm losin' all control  
There's somethin' 'bout this girl  
She shakin' up my world  
She got me doin' things  
I never did before  
There's somethin' 'bout this girl  
She shakin' up my world  
She got me out my zone  
I'm losin' all control  
Hey, uh, I know I promised you I'd take it slow  
I know I swore on everything I own  
But I can't resist, how's just one kiss?  
But don't look now  
You've got me going, I'm going, I'm gone  
Don't look now  
You've got me going, I'm going, I'm gone  
Don't look now  
You've got me going, I'm going, I'm gone  
Don't look now  
You've got me going, I'm going, I'm gone  
Don't look now
