Over A Man

Sharissa

Over, over a man
We been tied since junior high
Now we're faced with this lie
Why would I make up your man
Tryna talk to me, tryna get wit me
You confronted him to see what's up
He ran that game and switched it up
Makin' everything out to be on me, honey please
So you really wanna stop speakin' over a man
Best friends and you wanna fight me over a man
Why you gotta come to this my sista over a man?
I'm gonna do what I gotta do if you raise your hand over a man
Think of where we been and where we're at
And once we move we can't go back
It's a shame you'd rather be his fool than be my friend
See we been crew since the hood and I don't care
Ain't no thing that good
Is this the thanks I get for lookin' out and bein' your friend?
So you really wanna stop speakin' over a man
(Over your man, girl)
Best friends and you wanna fight me over a man
Why you gotta come to this my sista over a man?
I'm gonna do what I gotta do if you raise your hand
(Over a man)
So you really wanna stop speakin' over a man
Best friends and you wanna fight me over a man
Why you gotta come to this my sista over a man?
(Over your man)
I'm gonna do what I gotta do over a man
And how could you believe that mess about me?
I'm not even tryna stress, can't you see?
He's got you on some other mess
And best friends are all I thought we'd ever be
Comin' between us two but can't you see
Can't you see he's clowning you?
So you really wanna stop speakin' over a man
(Over your man)
Best friends and you wanna fight me over a man
So you really wanna stop speakin' over a man

(No, I won't fight you)
Best friends and you wanna fight me over a man
(No, I don't bear your man)
So you really wanna stop speakin' over a man
(No, I won't, sista girl won't fight over no man)
Best friends and you wanna fight me over a man
(Best friends, girl friends)
So you really wanna stop speakin' over a man
Best friends and you wanna fight me over a man
