

Contention

[MxPx](#)

This is a fight, broken bottles, bloody walls
There was a time, when a fist could solve it out
But those days are gone along with many murdered livesHey, contention
Hey, it's killing usThis is a war, complete with a body count
This ain't the past, this ain't the future, this is now
When will we stand up and refuse to be put down?Hey, contention
Hey, it's killing us
