

# I Can't Wait

## Dog Party

Winter comes again  
So it goes into your eyes  
Yes it does  
And then you call it a surprise

This is how things are really s'posed to be  
And the powder is three feet deep  
But I can't wait for you  
I can't wait for you

Spring comes again  
The pollen goes into your eyes  
Yes it does  
And then you call it a surprise

This is how things are really s'posed to be  
And the pollen falls from the tree  
But I can't wait for you  
I can't wait for you

Summer comes again  
So it goes into your eyes  
Yes it does  
And then you call it a surprise

This is how things are really s'posed to be  
Its been like this for one century  
Because I can't wait for you  
I can't wait for you  
I can't wait for you  
I can't wait for you
