

# Alena (Race Banyon Remix)

[Yumi Zouma](#)

Meet farway back whenever  
And now we've just been cruising with a ton of clothes  
And we'll meet up with whoever  
'Cause the truth is we hardly know  
Tick in the wind, it's our gift  
Put in the chocolate and back to you  
Seein' in my eyes, I see it all the time  
Give me all the trust, never enough for you  
Now's the time, when you can let your comfort go  
And let your worries take control  
Don't put us down I can feel my hope is fading  
Streets is filling with the tense in you  
With you we're moving together  
And you, the slip in the wait till forever  
Come over here and dance with me  
It's true that you'll never see me feel better  
But winter seemed an endless stream  
But I love when we bring stuff together
