Suzie

Half Pint

Hello, my name is Suzie
and I dream for a better, better glory
god bless you and I bless you
I'm angry why don't you squeeze me
the stage is my home and I guess when I roam
things could get out of my head
god bless you and I leave you
when the weather is hotSucker, yeah !Hello, my name is Suzie
don't spit on that floor like a loony
I'll bite you, so don't bite meI'm angry why don't you squeeze me
the pain is my home and I guess when I roam
things blow away my thoughts
god bless you and I catch you
when the weather is hotSucker, yeah !Hello, it's still Suzie
ready to play what you like
ready to say what you don't say
immediately to do sports
suffering a new holocaust
don't hit me, you will miss me
when the weather is hotSucker, yeah !Slide and winged all the memories
sing with me this little irony
You won't escapes from this reality
let us do such a sport activity
my time's too short
I missed the mark and
I can't remember why
