

# Suzie

## Half Pint

Hello, my name is Suzie  
and I dream for a better, better glory  
god bless you and I bless you  
I'm angry why don't you squeeze me  
the stage is my home and I guess when I roam  
things could get out of my head  
god bless you and I leave you  
when the weather is hotSucker, yeah !Hello, my name is Suzie  
don't spit on that floor like a loony  
I'll bite you, so don't bite meI'm angry why don't you squeeze me  
the pain is my home and I guess when I roam  
things blow away my thoughts  
god bless you and I catch you  
when the weather is hotSucker, yeah !Hello, it's still Suzie  
ready to play what you like  
ready to say what you don't say  
immediately to do sports  
suffering a new holocaust  
don't hit me, you will miss me  
when the weather is hotSucker, yeah !Slide and winged all the memories  
sing with me this little irony  
You won't escapes from this reality  
let us do such a sport activity  
my time's too short  
I missed the mark and  
I can't remember why
