

Shackles And Chains

Steppenwolf

Take all you got to give_ and let it shine._
Take all you got to give_but leave me mine._
Nobody likes you the way that I could.

For you , I'd dive to the bottom,

don't you know I surely would.Can you hear callin' late at night , when love comes tumblin' down.
Slidin' in your kitchen late at night, hear me stumblin' round.Someday you'll want me the way that I want you.
...and then I'll climb through your mountain if you really want me to.Don't hold your knife so close to my head.

I'll hide all the shackles and chains on my bed.

I know I'm a rounder it's hard to forget , after all the little playful things I've done.Now if you believe me, than
let us be kind.

We'll sit down together, and talk over wine.
If you show me your game , then I'll show you mine
till our shadows fade beneath the rising sun
