Baby Blue

I Can Make A Mess Like Nobody's Business

Way to try
See I've got a line
For you from me
It's very nice
A beautiful baby blue
Sky that's looking up at you
Now watch it fade away
But it's ok
See nights like this are never ending
We try so hard to make this perfect
You and I somehow
We cant see eye to eye together
We always knew that you were better
Well I know
That you want it all and
You've got me
So sorry
I never was everything
You ever dreamed
But kept at bay
For just incase that day
But it's ok
See nights like this are never ending
We try so hard to make this perfect
You and I somehow
We cant see eye to eye together

We always knew that you were better
With my bags packed
I'm ready to go
And nothings ever hurt so much for me
Than to let you go
To let you go
With my bags packed
I'm ready to go
And nothings ever hurt so much for me
Than to let you go
To let you go
With my bags packed

I'm ready to go
And nothings ever hurt so much for me
Than to let you go
To let you go
With my bags packed
I'm ready to go
And nothings ever hurt so much for me
To let you go
And to let you go
And to let you go
Just to let you go
And let you go
Now let you go
I'll let you go
