

# Don't Forget Me

## Spheria

In the wintertime keep your feet warm  
But keep your clothes on and don't forget me  
Keep the memories but keep your powder dry too  
In the summer by the pool side  
While the fireflies are all around you  
I'll miss you when I'm lonely, I'll miss the sunshine too  
No, don't forget me, please don't forget me  
Make it easy on me just for a little while  
You know I'll think about you, I hope you think about me too  
When we're older and little slower  
It doesn't matter now, come on get happy  
'Cause nothing lasts forever but I will always love you  
No, don't forget me, please don't forget me  
Make it easy on me just for a little while  
You know I'll think about you, I hope you think about me too
