There And Back Again

Watsky

Take, take your time
Smell the roses but steal the vines
Dont wait for the hands of time
To second guess and change your mindNow just shine
Heres your moment to shine, shineLay it down my friend, close your eyes, breathe in
And Ill take you there and back again
No more questions why, Im not so surprised
Why you have been there and back againReplace, replace that line
That spoke to you then showed no signs
To be alive, so are you living or dead
Have you made a choice to hear your voice
Or hold on to what they said?Now, shine
Heres your moment to shine, shineLay it down, my friend, close your eyes, breathe in
And Ill take you there and back again
No more questions why, Im not so surprised
Why you have been there and back againBack again, back again
Back again, back againLay it down my friend, close your eyes, breathe in
And Ill take you there and back again
No more questions why, Im not so surprised
Why you have been there and back againLay it down my friend, close your eyes, breathe in
And I will take you there and back again
No more questions why, Im not so surprised
Why you have been there and back again
