

A Not Quite Perfect Film

Lousy Robot

You give the longest compliments
That I've ever heard

But not me

I sing

And murder my days one at a time

I can be impossible

You hang on my every word

Forgive me

I sing

And murder my days one at a time

Everyone is watching us

And wishing they were in

This scene

Even if

Even if

Even if

On the day of our undoing

We're never gonna learn

No not me

I sing

And murder my days one at a time

Everyone is watching us

And wishing they were in

This scene

Even if

It's a not quite perfect film we're in

When the morning found me

My head was full of words

Believe me

I sing

And murder my days one at a time

Everyone is watching us

Everyone is watching us

Everyone is watching us

And wishing they were in this scene

Even if

It's a not quite perfect film we're in
