

In You (I Found a Love)

Charles Bradley

In you I found a love
Make me feel so real, oh, man
Sometimes when I'm sleeping at night
I wake up and you're nowhere to be found
You said you love me and you'll always be around
In you I thought I found a love that's true
But you used me, I guess I'm just somebody's fool
I don't wanna be a fool no more
With me you found love and you tore it apart, oh darling
You said you loved me and you'll always be around
Wait a minute, wait a minute
What you gonna do baby stop it
Don't hurt me, stop playing with my heart
I feel, you hurting me so bad
Can't take this pain no more, no, ooh
I thought you loved me and you'll always be around
Now that you're gone, baby
You break my heart in two, oh
Again, again and again
