Angels Forever

Lana Del Rey

Is the sun in your eyes, easy rider?
Do the flame colored skies light your fire?
We are living by the lions
They will never understand
The kind of people you will hire
Bow your heads and take your handsThey were angels forever
Forever angels
They were angels forever
Forever angelsDoes the ocean inspire, easy-rider?
Do the stars and the wind take you higher?
You are California proud
You are angels of the night
Rock and roll guardians now
The last keepers of the lightThey were angels forever
Forever angels
They were angels forever
Forever angelsParadise is a hell-colored is a flame sky
Is it nice to feel free and wild?
Paradise is a game of do or die
I just ride, ride, rideThey were angels forever
Forever angels
They were angels forever
Forever angels
They were angels forever
Forever angels
