Trophy

Madelyn Brene

TROPHY
Verse 1:
Boy I see hard you been searching
Just to find that thing
That you wished for in a girl like me
Now I wanna give you everything asked
What every man should want but just don't know so they slipped up and passed
It's rewarding to open up the treasure box and gaze at what you seeChorus:
I'm your trophy, hold me tight, do me right and show the world your ladyVerse 2:
Can't nobody do it quite like me?
Everything you ever wanted that is in and out your fantasy
Can light up a room with just my smile
And the way that I think and I walk and I talk
Make the wait more worthwhile
Now the hard work is done
And now you can tell the world that you have one
You were patient in your tries,
So a job well done, now the time has come
To come and claim your prizeChorus:
I'm your trophy, hold me tight, do me right and show the world your ladyBRIDGE:
The award goes to the man that took the prize
Who changed the game and now takes home the prize
Who took the time to know me and pursue
Now there's no question in the way that Il love youRap
Every time you look this girl right in her eyes,
Shell give you all the feelings that you cannot hide
Took a little while to see first place
But how you feel now since you won this race
She's everything you wanted and the girl of your dreams
Brains and beauty and a walk that's mean
All the glowing things that you long to see
So get your case ready cuz its time for TROPHYCHORUS
