

# Back To Black

Terry Allen

Every night the same light shines  
From your eyes and back to mine  
With a vision of the love  
We thought was true But the darkness of the world out there  
Surrounds the love we thought we shared  
And it all fades back to black  
'Tween me and you But me and you were not to blame  
Love always returns from where it came  
Back to black and in the end  
It's all the same Now the darkness has slipped inside  
But neither one of us can hide  
Though you act for me  
Just like I act for you But when our two fates did cross  
We should have both guessed the cost  
That it all fades back to black  
And nothing's new But me and you were not to blame  
Love always returns from where it came  
Back to black and in the end  
It's all the same So if some mirror up on the wall  
Reflected the love that we once saw  
We could stand there forever  
And never move But love's picture in the glass  
Fades away, it never lasts  
It just all fades back to black  
And nothing's true But me and you were not to blame  
Love always returns from where it came  
Back to black and in the end  
It's all the same Back to black for me and you  
Is back to blue
