

# Everybody Needs Love

## Clay Walker

In LA they love their cars, their muscles, and their martiny bars  
They love to tan, they love their gouchi, their raban shades, and eatin' sushi  
Over in Texas they love the cowboys  
From the big city bankers to the plowboys  
They love their ribeye, ropin' steers  
Shootin' Jose Tequila, and long neck beers  
World's apart for worse or for better  
The one thing that brings us together is[Chorus]  
Everybody wants love, love, love  
Everybody wants love  
Everybody needs love, love, love  
Everybody needs love  
Over in Nashville they love their country  
Eatin' biscuits and gravy on Sunday  
They love the opry, George Jones  
Crankin' Sweet Home Alabama and The Rolling Stones  
New York, New York big as it gets  
They like to fight between the Yankee's and the Knicks  
Down South they love their football  
The Bulldogs, and Longhorns, and the Tennessee Vaults  
World's apart for worse or for better  
The one thing that brings us together is[Chorus]It makes this whole world turn 'round[Chorus: x 2]
