## Unmarked

## **Yazoo**

Go and join the army Said the father to his son See the world around you boy And learn to use a gun Think you're something special Well, we'll make you just the same There's nothing wrong in dying After all, it's just a game - It's just a game.(chorus) Singing; oh ohRead the morning paper There's a picture of a cross "We were proud in them days" By the way, I think you lost Trust me when I tell you boy That God is on our side Even Jesus cheers us on Against the other side - Against the other side.(repeat chorus)He who shouts the loudest Is the one that's in control We who never listen Are the ones who pay the toll Tell us that it's time at last To make a final stand I'm glad 'cos all I wanted Was to kill another man - Just to kill another man(repeat chorus to fade)
