Our Time Is Now

Mudhoney

Our time is coming
Here comes our time
Our time is now
This is our timeThey say that time is tight
Well, we're tight too
Yeah, we know just what we gotta do
They say that times are tough
They're flying down below
They're crawling overheadStill they don't know
They can see though walls
Our time is coming
Here comes our time
Our time is nowThis is our time
We choose neither
No we're not with you
Given two lousy choices
We're not with them either
Our time is coming
Here comes our time
