Come Over (interlude)

Danity Kane

I know you wanna come over
You can come over
Baby, I'm alone tonight
And I wanna feel alright
You already know what I like
Oh, if come over
I will lay you down somewhere
You'll literary blow your mind
Baby, just relax your mind
You know, whenever you come over

Ain't nobody thinkin' 'bout leavin'
'Cause we got each other an' leavin'
You to stay till the mornin'
I love it when you come over
'Cause I don't wanna wake up alone
Baby, I've been checking my phone
Boy, you belong here
Waitin' from nowhere
