

Pride

Corey Smith

I read P-R-I-D-E on the bulletin board first day of my sophomore year

Eastpak on my shoulder, Nikes on my feet

Draggin' slack I was bustin' in my baggy jeans

I thought whatever and I rolled my eyes

Went struttin' down the hall to give my boys high fives

The friends I made back then are my real friends now

I still see 'em when we go hang out in town

Down the road from the halls we came of age in, now I get it
Chorus: Pride was a capital letter on my baseball cap

It's what held us together around this dot on the map

Now it's the color that I bleed and the stitches in my shoes and my jacket match

PrideI read P-R-I-D-E on the cheerleaders sign on the field on a Friday night

I wudn't on the team, I wudn't in the band

Just another 12th man up in the stands

Flying off my feet when the home team scored

Laughin' at the visitors pointin' at the scoreboard

Sure I got carried away but I didn't mean harm

Just a fan of where I was from

The stadium lights shine bright on us all, win, lose, or draw
Chorus: Pride was a capital letter on my baseball cap

It's what held us together around this dot on the map

Now it's the color I bleed and the stitches in my shoes and my jacket match, yeah

PrideI was a country boy but I wudn't a redneck

A solid B student on the college prep track

I had ambition, plans of moving on

But I graduated college then I came back home

Because the trees grow strong when their roots run deep

And this town's the only place I can soundly sleep

P-R-I-D-E's in my heart and soul

It's something I want my children to know

So I keep believing, no plans on leaving

Even if we have a losing season
Chorus: Pride is a capital letter on my baseball cap

It's what holds us together around this dot on the map

Now it's the color that I bleed and the stitches in my stitches in my stitches in my

Pride is a capitol letter

It's what holds us together

It's the color I bleed and the stitches in my shoes and my jacket match

Pride

Pride

Yeah we got Pride

Yeah we got Pride
