

Protomech

Fear Factory

Devoid and broken within
I lost human origin
Erased and disgraced, desensitized
I have been dehumanized
Corrupt and deface
Judge to be damned
Speak out, eradicate
Species of man
My life has ceased to exist
Designed to be ProtoMech
Detach, extract my mind to dissolve
Alive death comes to us all
Corrupt and deface
Judge to be damned
Speak out, eradicate
Species of man
Take everything away from me
Replace my skin with circuitry
All that I have bleeding from me
To feed the machine
My life is taken to feed the machine (2x)
Devour energy, destroy all life(2x)
Synthetic insurrection
Genetic isolation
Programmed elimination
Robotic evolution
Take everything away from me
Replace my skin with circuitry
All that I have bleeding from me
To feed the machine
My life is taken to feed the machine (4x)
Devour energy, destroy all life
