

Lift

The Apex Theory

come by just to shoot me up
as soon as you leave
you leave us inside
we're locked in this way
i can't explain today
it's starting to bend back to the wall
not again
need a lift come by to stay sure
a leak to the underland
don't stare
it leads to them
coming back for us
it's starting again back to the wall
not again
need a lift
