

Some Days Are Made For Rain

Aaron Neville

We held each other till the moon was high
We waved that sleepy little town goodbye
And driving off together we crossed our hearts
Living for the promise that love would keep us honest
And I said I'd be yours if you'd be mine
We were crazy baby
And everyday the sun was sure to shine
But it tried and tried
Sometimes the wind makes a sudden change
And some days are made for rain
We fixed a tire and we drove like hell
We kissed like fire in a cheap motel
I never felt the hunger so bad before
Holding you beside me, walls came down inside me
And I thought I was yours and you were mine
That was crazy baby
I wasn't sure the sun would always shine
But it tried and tried
Sometimes the wind makes a sudden change
And some days are made for rain
You want to talk about love, I'll tell you all about love
Nothing but trouble on top of falling
One day you're walking on air
Next day you look and there's no one there
She never cared, she never cared
Now I've been sleeping with the TV on
I get so tired of wondering where you've gone
You tore across my heart like a hurricane
I'm counting up the damage, trying hard to manage
And I thought I was yours and you were mine
That was crazy baby
And I was sure the sun would always shine
But take a look outside
Sometimes a wind makes a sudden change
Here comes those clouds and they're full of pain
Some days are made for rain, some days are made for rain
Let it pour outside, some days are made for rain
Some days are made for rain
Some days are made for rain
