Voice

Saxon

you call my name,
deep in the coldest blackest night
you save my life,
i heard your voice deep in the nightbut in my nightmare,
i start to scream,
in my nightmare this is no dreamyou call my name,
you save my life,
deep in the night
i heard your voicei saw the flames,
i watch that memories turn to dust
i saw them burn
and walk away,
not looking backbut in my nightmare
i start to scream,
in my nigthmare this is not dream,
this is your dreamyou call my name,
you saved my life,
deep in the night
i heard your voicewake up, wake up, wake upin my nightmare
i start to scream,
in my nightmare
this is no dreamsometimes i wake,
i see the fire in the night,
it's only dreams
i hear your voice deep in the nightbut in my nightmare
i start to scream,
in my nightmare
this is no dreamyou call my name,
you saved my life,
deep in the night,
i heard your voice,you call my name,
you saved my life,
deep in the night
i heard your voice.
