AINT NO LOVE

MUS BUS

I wanna run and never get tired
I wanna love the best, I was wired
I wanna know that I can't betray this
Be more than elated to be aliveI wanna know that I'm taken care of
Know who I am is not about makeup
I don't need caffeine or compliments fading
'Cause when I'm breathing it keeps me high'Cause there ain't no love we're sending
We need somethin' heavenly to believe
'Cause the further that we're gettin'
No anger will refuse to sleep, erasing you and meSo sun, let your rays leave us inspired
Teach us that true love never expires
And appreciate the things we've been given
Be happy to have or to be a friend'Cause there ain't no love we're sending
We need somethin' heavenly to believe
'Cause the further that we're gettin'
No anger will refuse to sleep, erasing you and meWhat this world doesn't need is this sappy song to sing
But if it starts some thinkin', it's good enough for me'Cause there ain't no love we're sending
We need somethin' heavenly to believe
'Cause the further that we're gettin'
No anger will refuse to sleep, erasing you and meThere ain't no love, no, there ain't no love
We need somethin', somethin' heavenly
'Cause the further that we're gettin'
No anger will refuse to sleep, erasing you and me
There ain't no love
