

Desire

Gene Loves Jezebel

Sugar I've been missing you
And I've been wondering, where it is you're hiding
I've been a ball of fire in your arms desire
And I've been wondering, where it is you're hiding What you get is what you seek
Desire
What you get is what you seek
Desire Honey, I won't be kissing you
'Cause I've been wondering, where it is you're hiding
I've been a ball of fire in your arms desire
And I've been wondering, where it is you're hiding What you get is what you seek
Desire
What you get is what you seek
Desire I've had my ears to the ground, to the ground
I'm just trying to find out what you're hiding
What is the mystery? What you get is what you seek
Desire
What you get is what you seek
Desire What you get is what you seek
Desire
What you get is what you seek
Desire What you get is what you seek
Desire
What you get is what you seek
Desire
